Citizenship USA, Australia

Summary

I'm a labor economist interested in how workers match to jobs and how these matches can be better. I'm especially interested in worker education but also worker skills and firm needs. Experienced in asking and answering research questions, cleaning and analyzing data, leading and mentoring research teams, and communicating with and helping clients.

Experience

The Burning Glass Institute

March 2022 - Present

Economist

Used North Carolina administrative data to estimate the ROI for each program in the UNC system.

Used Lightcast Posting data to find occupations + skills most demanded by advanced energy companies.

Created an R package to streamline interaction with the company Snowflake server.
